1. INTRODUCTION.

These Rules and Regulations have been developed as a basis for good relations within **Sherwood Manor**. Because this is a manufactured home community, it has unique conditions which must be recognized and dealt with in a fair and reasonable manner and applied and complied with on an impartial basis. The spirit behind these Rules and Regulations is the Golden Rule: "Do unto others as you would have others do unto you." We trust we will have your complete cooperation not only to keep Community standards high and to maintain a happy and friendly atmosphere, but also to assure each Resident a maximum of convenience and comfort.

The following Rules and Regulations are a part of your rental agreement. Please read the Rules and Regulations carefully and keep them on file as they constitute a binding agreement between you and the Community Management. Furthermore, the regulations contained in these Rules and Regulations will apply to any legal owner, registered owner, junior lienholder, heir, joint tenant, or personal representative of the estate of a Resident or any other person or party who gains ownership of Resident's manufactured home manufactured home pursuant to Oregon or other federal laws. The Community Management will interpret and enforce these Rules and Regulations in a reasonable manner.

2. COMMUNITY STATUS.

Sherwood Manor is an all-age community with no minimum age requirements for Residents.

3. ANNUAL VERIFICATION OF INCOME.

The Community operates as a community for low-income housing pursuant to Federal guidelines. Accordingly, Resident shall be required to verify his or her income annually after being given ten (10) days written notice of the same.

4. DEFINITIONS.

The definitions set forth below shall apply unless the context indicates that a different meaning is intended:

A. "Guests" are all persons not listed on the written rental agreement and include all persons who visit the Homesite at the invitation, request or tolerance of Resident.

B. "Homesite" means the real property rented to Resident by Owner and identified in the rental agreement. The boundaries of the real property rented to Resident shall be the lesser of either: (1) the lot lines as determined by a governmentally approved survey or by a recorded plot plan; or (2) the apparent physical boundaries of the Homesite as they exist at the time the rental agreement is/was entered into. PLEASE NOTE: The boundaries of the Homesite end at the top of the roofline of the Resident's manufactured home. The rental of the Homesite does not include any right or easement for light or view. These rights are specifically reserved to Owner. Regarding maintenance of the Homesite, Resident shall be responsible for the greater area as defined by this paragraph.

C. "Owner" includes, but it is not limited to, the owners of the Community (including the owner's partners, directors, representatives, officers, employees, and agents) and the management of the Community (herein referred to as the "Community Management").

D. "Community" means Community Name.

E. "Community Facilities" means those services and facilities of the Community generally available to Residents and their Guests.

F. "Community Management's approval" or "approval of Community Management," "Community Management's consent" or "consent of Community Management" or other similar terms as used in these Rules and Regulations or in other documents referred to in these Rules and Regulations, means that the Community Management's prior written approval must have been obtained by Resident before Resident commences any such action requiring Community Management's approval. C. Community Management will attempt to promptly, equally and impartially obtain the cooperation and compliance of all Residents with respect to the Rules and Regulations and other conditions of residency. Resident recognizes, however, that Community Management's ability to obtain compliance is dependent upon a number of factors, including the cooperation of all Residents and their Guests. Furthermore, Resident is responsible for determining that Resident's manufactured home (as well as all appliances and additional equipment used on or at the Homesite) is compatible with the electric service of the Community. Under no circumstances may any Resident or Guest touch, alter or tamper with the Community's utilities and pedestals for gas, electricity and water. Such utilities and pedestals for gas, electricity and water are the sole property of the Community. The maximum amperage is determined by local electricity provider.

B. Manufactured Home Sizes. All manufactured home in the Community shall conform in size to the requirements of the Homesite on which they are placed as established by Community Management and governmental requirements. Placement of manufactured homes shall be determined by Community Management.

Such plot plan must include, but may not be limited to, dimensions of manufactured home, placement of manufactured home on the Homesite, and proposed placement of accessory equipment in relation to lot lines and all other structures.

(6) Resident is cautioned that there are manufactured homes and Homesites in the Community which contain accessory equipment and structures which no longer conform with present Community standards and regulations; therefore, Resident may not assume Resident’s plans will be approved because the plans conform to accessory equipment and structures existing on other manufactured homes or Homesites.

(7) Resident is responsible for making sure that Resident’s manufactured home and all appliances and equipment in the Home are compatible with the electric service and capacity now available, and Community and Owner shall have no liability or responsibility to Resident if the available electrical supply is incompatible. Resident agrees not to install electrical appliances, which will use energy in excess of the electrical service and capacity available to the Homesite. Resident also agrees that Resident will not attempt to increase the electrical service and capacity of your space by installing any device or doing anything else unless you have received our prior written permission. Any work on the Community’s Electrical pedestal shall be done by the Community in its sole discretion. If Resident’s electrical demands exceed the capability of the Community, or are otherwise inconsistent with the capabilities of the Park, Resident will be deemed to be in default under Resident’s rental or lease agreement and Resident will, in addition to all of the remedies available to Community, reimburse Community within ten (10) working days for any costs and expense Owner incurs in remedying the situation created by Resident’s use of excessive or inconsistent electrical demands. Resident also agrees to indemnify and hold Community and Owner harmless against any loss, cost, damage, expense (including attorneys’ fees and cost) or other liability incurred or imposed by reason of any injury to persons or property which occurs as a result of Resident’s electrical demands. As the amount of such electrical services and capacity will affect Resident’s ability to have electrical appliances, Resident must determine in advance from us in writing the amount of electrical service and capacity available to Resident’s Home and all appliances and equipment in it are compatible with that service and capacity.

(11) Rain Gutters. All manufactured homes and awnings attached to the manufactured home must be fitted with rain gutters and down spouts that do not drain into a neighboring lot. (14) Fences. Resident must obtain prior written approval of Community Management before erecting any fence on Resident's Homesite. All fences must be painted or stained to match Resident's manufactured home. No fence may exceed six feet (6') in height (if located to the side or rear of the Homesite) or thirty-six inches (36") (if located between Resident's manufactured home and the street). Any fence must be placed inside Resident's Homesite and not infringe on any adjacent Homesite or common area.

(15) Antennas and Reception devices. Resident must abide by the following

standards regarding the installation of any exterior reception device or antenna (“Reception Device”) on Resident’s Homesite:

(b) Only Reception Devices with a diameter or diagonal measurement of one meter (approximately thirty-nine inches (39”)) or less will be permitted. Any permitted Reception Device must not be visible from the streets or common areas of the Community and must be located on the ground to the rear of Resident’s manufactured home unless such location interferes with the quality of reception. **Important: If installing the Reception Device on the ground will make it less visible than if installed on the Home, Residents are encouraged to do so. A Reception Device may NOT be installed on the ground without Community Management’s prior written permission, which may be withheld in its sole discretion, unless such location interferes with the quality of reception. The Reception Device must be located to the rear of Resident’s manufactured home unless such location interferes with the quality of reception.**

(c) Reception Device shall be installed and secured in a manner that complies with all applicable codes, state and local laws and regulations and manufacturer instructions. Every Reception Device must be installed and secured so that it does not jeopardize the safety of any neighboring property, or any person located at or near the Reception Device. In addition, no Reception Device may be installed or placed in such a way as to obstruct a driver’s view of any street, driveway, sidewalk or intersection.

(g) Cable television service is available through the local service provider.

(k) In addition, a mast installed on the exterior roof of any Home or other structure shall not be installed nearer to a lot line than the total height of the mast and Reception Device structure above the roof of the Home or other structure. No liens against the Community will be allowed, and Resident agrees to immediately take any and all action to remove the same and protect the Community at Resident’s sole cost.

F. Underground Utility Location. To avoid damage to underground utilities, Resident must have Community Management’s consent before digging or driving rods or stakes into the ground. Resident shall bear the cost of repairs to any utilities or Community property damaged by Resident. In addition, prior to beginning any digging on the Homesite, Resident must contact the Community Management in order to locate and mark out all utility lines in

digging area. Resident is responsible for damage to any of the Community or utility company's utility lines caused by Resident or Resident's agents. All holes must be filled and leveled.

G. Community Not Responsible for Work Done By Homeowner. The Community is not responsible to inspect and approve any work done by Resident or by Resident's contractors or agents, including, but not limited to, the installation of Resident's manufactured home, driveway, walkways fences or any other equipment or improvements of any type. To the extent that Community may inspect or approve something, it is for Community's own purpose only and Resident is not entitled to rely on that inspection or approval to ensure that the items have been installed or constructed correctly or that the work has otherwise been done as required. Instead, Resident is responsible for all required inspections, permits and approvals. Resident is solely responsible for any work which is improperly done, and which causes any damage to Community or other residents in the Community.

11. LANDSCAPING.

A. Landscaping of unlandscaped Homesites or changes to existing landscaping shall be completed within ninety (90) days of the date Resident signs the Community's rental agreement or first occupies the Homesite, whichever is earlier. Extensions may be requested for management consideration.

B. Prior to commencing any landscaping, including changes to existing landscaping, Resident shall submit a detailed landscaping plan to Community Management for approval.

(1) All changes made by Residents already residing in the Community must be completed within sixty (60) days of approval. Extensions may be requested for management consideration.

(2) Any landscaping which has been installed by Resident without Community Management approval and/or in violation of these Rules and Regulations must be removed by Resident within ten (10) days of written notice.

(3) Any irrigation system must have prior written approval of Community Management.

(4) Resident is cautioned that there are Homesites within the Community which may have landscaping which no longer conforms with present Community standards and regulations. Therefore, Resident may not assume Resident's plans will be approved because the plans conform to existing landscaping.

C. The following general landscaping standards are provided only to assist Residents in their preliminary planning:

(1) Only live plants or artificial plants (with manager's approval) may be used.

(2) Evergreen grasses, ground covers, flowers and small shrubs are generally acceptable, and Resident is encouraged to install and maintain same. Succulent plants are recommended. Artificial green turf may be acceptable with prior approval by the Community manager

(3) Community Management expressly prohibits the use of any manures or odorous chemical fertilizers.

(4) Waterfalls, statuary and other forms of decor will be permitted only with Community Management's approval.

(5) Some form of planted ground cover, acceptable to Community Management, is required.

(6) Landscaping or decorative rock, with an underlining of black plastic for weed control, may be used by the Resident. All rock must be cleaned as needed and additional rock added as necessary, to ensure that there is sufficient rock at all times to adequately cover the area over which the rock is spread.

(7) No large trees and tall plantings are permitted. However, a small tree (which, at maturity, may not exceed eight feet (8') in height) may be planted on Resident's Homesite only with prior written approval of Community Management. Community Management retains the option to determine the location of and the type of tree which may be planted. In no event may any tree be planted within six feet (6') of any lot line or in the vicinity of any underground utility system.

(8) No plant, tree, or shrub may be planted which has a root structure that may cause any damage, including, but not limited to, cracking or buckling of streets, driveways or other community facilities or which may interfere with any underground utility system.

(9) Small vegetable or fruit gardens not to exceed one hundred square feet (100') are permissible in the rear of the Homesite providing it is out of view from the Community streets. Resident must contact Community Management to determine whether the vegetables or plants they intend to plant are permissible, as several varieties of plants that may infringe on a neighbor's property, or are unsightly, are expressly prohibited.

(10) To avoid damage to underground utilities, Resident must have Community Management's consent before digging or driving rods or stakes into the ground. Resident shall bear the cost of repairs to any utilities or Community property damaged by Resident.

(11) The existing drainage pattern and grading of the Homesite may not be changed without Community Management's consent. Resident is responsible for ensuring that water does not puddle or stand and drains away from Resident's manufactured home into the street, but not onto other Homesites or common areas. Resident may be required to correct improper drainage at Resident's expense, including, but not limited to, re-leveling or otherwise adjusting Resident's manufactured home or repairing and/or replacing any improvements.

(12) Prohibition on Growing Marijuana Plants.
